Peshawari:

The beautiful mind of an artist is blessed with divinity. We realized this fact when we set to collaborate with a talented London based designer Chahat Pahwato to create something more ethnic, elegant and immemorial. Peshawari represents uniqueness and the passion of creating colourful designs in Damask and Pichwai for your upholstery. The rich textile culture in India with each fabric intricately woven representing our aristocratic tradition, immersed in bright colours of saffron, crimson, rose, midnight blue, represent India's diverse culture. Pahawa's designs transform your space with her penchant for art.

Bukhara

Reflecting the royal Rajasthani culture Bukhara has wide range of fabrics to offer; velvet, suede, cotton and leatherette. All the designs are from Rajasthani textile tradition so they offer an ethnic look that never fails to attract attention.
